

## RECTAL MRI SYNOPTIC REPORT MINIMUM DATASET

### **TUMOUR**

Tumour location (eg. low, mid or high)  
Length of tumour  
Degree of circumferential involvement  
Distance of tumour to anal verge  
Tumour relationship to ano-rectal junction  
Tumour relationship to anterior peritoneal reflection  
Shortest distance of tumour to meso-rectal fascia (MRF)  
Presence or absence of extra-mural venous invasion (EMVI)  
T-stage of tumour

### **NODES**

Presence or absence of suspicious peri-rectal nodes (ie. within the meso-rectal fascia)  
    If present; the number of nodes  
    If present; the shortest distance to meso-rectal fascia of suspicious nodes  
Presence or absence of suspicious nodes outside the meso-rectal fascia  
N-stage

### **ANCILLIARY FINDINGS**

Presence or absence of pelvic metastatic disease
