

Call for Applications - Software Carpentries Workshop

The eLwazi Open Data Science Platform (www.elwazi.org), hosted within the Computational Biology Division, will be running a workshop designed to introduce participants to the fundamentals of coding using Unix/command line & Git in an interactive environment. If you're interested in learning how to code but are unsure where to start, then this workshop will be helpful for you.

Workshop Overview:

The workshop will follow the software carpentries style of instruction, which emphasises hands-on learning and practical coding skills. The purpose of the workshop is to provide a foundation for coding that participants can build on. The workshop is open to all – including complete beginners or those with some experience with coding.

Workshop Details:

Date: 08 – 10 April 2024

Time: 11:00 am to 2:00 pm CAT

Venue: Medical School Campus, University of Cape Town

Registration:

Space for this workshop is limited, to secure your spot please register at this link: <https://redcap.link/7hnzlwil>
