Group summaries and comparisons in R (Part 2) - Friday, 12 April 2024 (10:00-13:00)

Extend your skills needed to explore and manipulate data in R. In this course, you will learn how to create customizable summary tables ready for publication (e.g., Table 1 containing demographics) via `gtsummary()` package. You will also be introduced to ways to analyse epidemiological data (e.g., measures of disease frequency and association) via `epiR()` package.

Instructor: **Mustafa Shuaib** (Epidemiology & Biostatistics)

Assistants: **Siphesihle Sithole, Demi Meyer, Naomi Chitsa and Chad Africa** (Epidemiology & Biostatistics)

Registration: required - priority given to current students enrolled in the MPH program.

Registration link: <https://forms.gle/z3ZzBaXx9tYUQDMu9>

Where: Wolfson Lab2

Fees: No charge for students taking MPH courses, or for staff who are part of the School of Public Health. **R500 / workshop** for people from other departments/faculties, payable by internal fund transfer only
