

Online Assessment short course

Overview: This is a non-credit bearing continuous professional development (CPD) course which aims to provide teaching staff the opportunity to develop and improve their understanding of, and practical skills in assessment. As of 2016, this is an accredited UCT short course for which you may receive a UCT certificate on completion should you wish to do so. The overall aim of the assessment module is to critically review the range of assessment methodologies appropriate to the classroom and clinical context
