

Essentials of Nursing Children Course Bursaries

A limited number of Children's Nursing Development Unit bursaries are available for nurses from other African countries (not South Africa).

To apply for a bursary, tick the appropriate box on the application form and submit the following TWO documents to cndu@uct.ac.za:

1. A **letter of motivation written by yourself** explaining why this course will be beneficial to you and your clinical setting.
2. A **letter of motivation from your manager** explaining why the applicant's completion of the course will be beneficial to the clinical setting.

These letters need to be received before the course application closing date. Failure to complete this process will mean you are ineligible for a bursary. Please note that there are only a limited number of bursaries available and a complete application process does not guarantee receipt of one.
