About the Fund

For the past 21 years, the University of Cape Town's (UCT) Faculty of Health Sciences (FHS) has assisted vulnerable undergraduate students requiring emergency financial support through the Undergraduate Student in Distress (UGSID) Fund. This fund, established in 2004 through the generosity of teaching staff familiar with their students' challenges, relies on the support of individual donors to sustain it.

Focus of the Fund

The UGSID Fund is an agile response to urgent and emergent needs. It provides short-term financial support to cover daily living expenses or emergencies such as access to meals, basic toiletries, accommodation/rent, medication, eye tests and the provision of spectacles to enable effective studying, and home travel for emergencies such as the death of an immediate family member.

We believe that no student's socio-economic status should determine their optimal functioning during their studies, nor affect their cognitive, emotional and educational well-being.
