

2024 Department of Paediatrics & Child Health (UCT) Research Days

Dear colleagues,

This year we will host an in-person, one-and-a-half-day event for our annual Research Days; we hope to include the option for the proceedings to be viewed as a synchronous webinar too if possible.

Please may we ask that you diarise these dates for the 2024 Department of Paediatrics & Child Health Research Days (see below) and ensure that clinics are cancelled to allow as many departmental members to attend as possible. If dates need to be changed, we endeavour to notify you as early as possible.
