

Postgraduate Education Committee

The Department of Paediatrics and Child Health offer postgraduate programmes that span the scope of clinical paediatrics and child health

A Postgraduate Education Committee provide the Faculty of Health Sciences Mandate to provide:

- *Good Governance to ensure quality in design, development, and delivery of postgraduate programmes in Paediatrics and Child Health.
- * Support of postgraduate students as well as supervisors and programme convenors.

The committee includes postgraduate programme convenors and members elected by peers to serve on a rotational basis. The committee members include a hub of postgraduate administrators who facilitate the day to day work of postgraduate programme support and governance and facilitating clear communication between the postgraduate office at Faculty level and the Department.
