

# Always work safely with pesticides

1

Always measure pesticides with the correct equipment.

2

Use a funnel to pour pesticides and to ensure that there are no spills.

Do not eat while crops are being sprayed.

Do not smoke while crops are being sprayed.

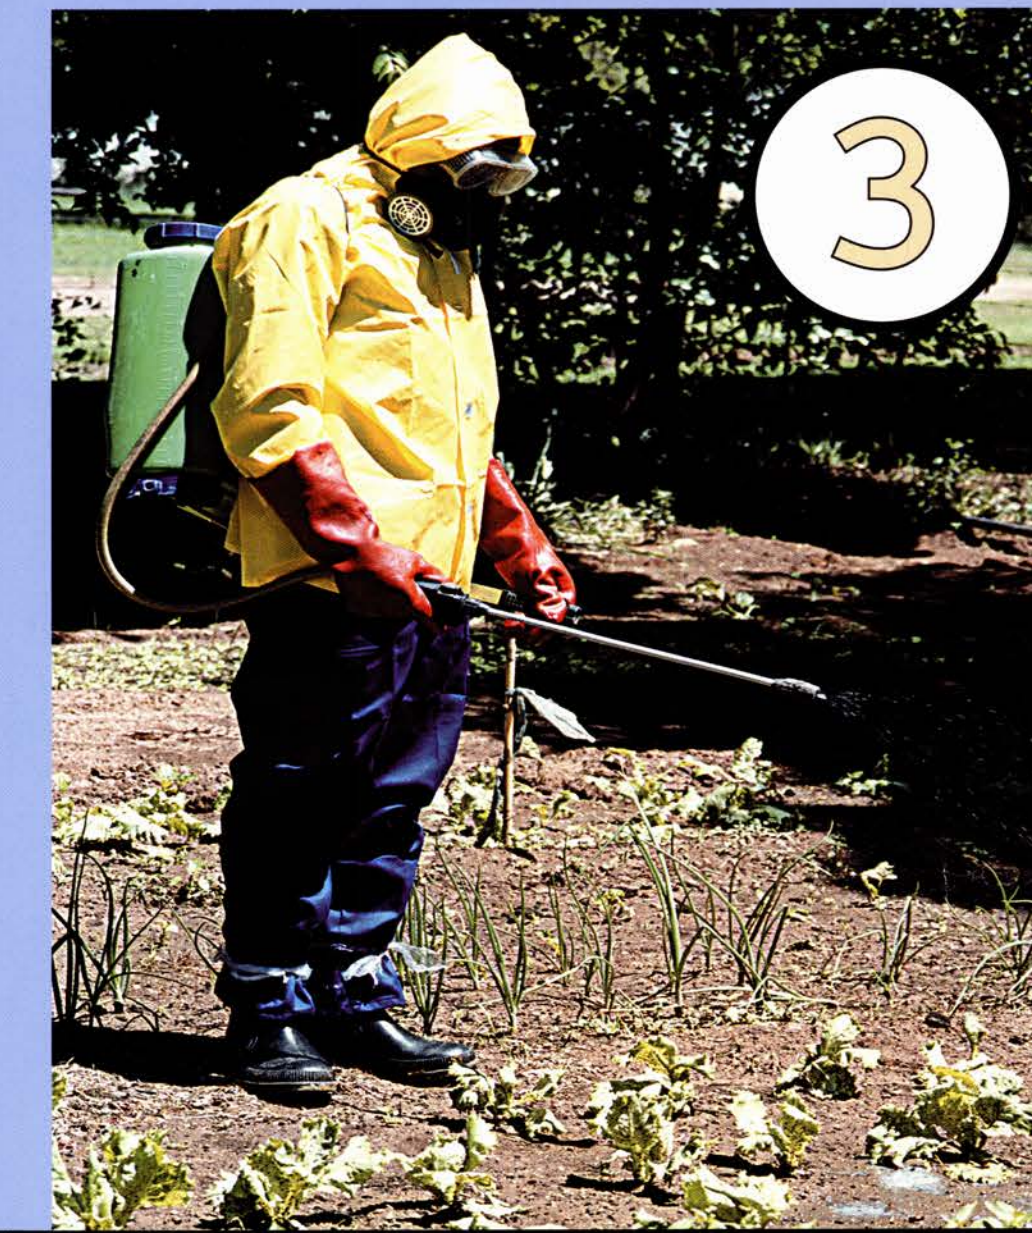

Do not use a leaking back pack to spray crops.

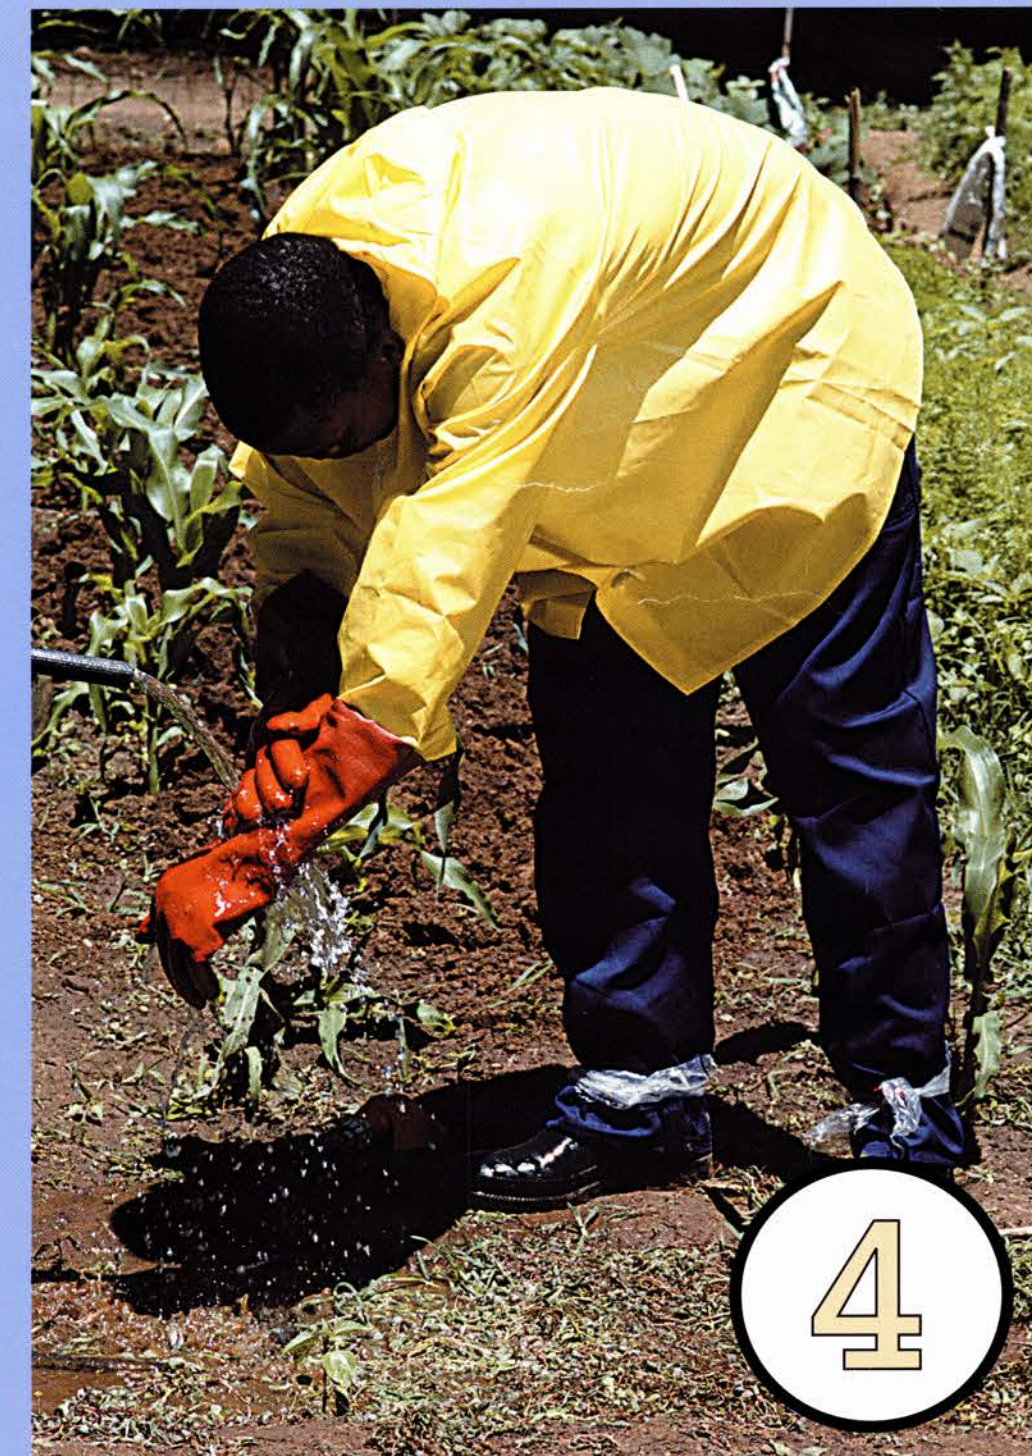

5

Clothing should be washed thoroughly with soap and water after working with pesticides.

3

Be sure to wear the correct protective equipment when spraying with pesticide.

4

Wash hands thoroughly after working with pesticide.
